

DEPLOYMENT GUIDE:

Step 1 : Unzip the submitted folder.

It will contain the following documents:

1. Deployment_guide.pdf
2. Approach Documentation.pdf
3. features_test
4. features_train
5. labels_train
6. EDA_Training.py
7. Test.py
8. Xgb.pickle.dat
9. test_output.csv

Step 2 : Install the following python libraries if not already installed

1. numpy
2. pandas
3. sklearn
4. pickle
5. seaborn
6. matplotlib
7. xgboost

Step 3: run the Test.py to obtain the test results as a csv file named test_output.csv

Step 4: run EDA_training.py to retrain the models
